

# OVER THIRTY YEARS OF EXCELLENCE

Founded in 1984, Matrix Service is a subsidiary of Matrix Service Company (Nasdaq: MTRX), a top-tier engineering, construction and maintenance company that, through our family of brands, designs, builds and maintains infrastructure critical to North America's energy, power and industrial markets. Matrix Service offers engineering, procurement, construction, maintenance, and turnaround services. The company holds a leadership position in the engineering, fabrication, construction and repair of aboveground storage tanks and specialty vessels.

**Safety. Integrity. Positive relationships. Stewardship. Delivering the best. It is these core values that have forged our reputation for excellence.**

**A HIGHER STANDARD IN CONSTRUCTION**

# STABILITY AND SKILL IN A CHANGING WORLD

In today's marketplace, it's not enough to offer good value. Agility is essential.

You have to be fast on your feet, responding to market trends and seizing opportunity to establish competitive advantage. Your service providers play a major role in your ability to move quickly. You need a trusted, capable partner you can rely on to:

- Get the job done safely and reliably
- Meet its commitments at every stage
- Deliver on time, on spec and with the highest quality

Matrix Service exemplifies this nimble entrepreneurial spirit. We are a multifaceted, full-service contractor providing engineering, construction and industrial services to companies across the United States, Canada and Mexico. Since our start in 1984 as a petroleum tank provider, we've had a rich history of success and repeat business. That attests to our integrity and capability: The proof is in our performance. Matrix Service delivers superior value to customers in the oil, gas and chemical, industrial, energy and bulk storage sectors. We offer:

- A comprehensive portfolio of skills and offerings
- High-quality, safe work, carried out by skilled professionals
- Consistent service on large and small jobs alike
- Proven excellence in project management
- In-house skills which make us more efficient, such as engineering and fabrication
- The ability to respond to your needs fast and cost-effectively

## An adaptable, collaborative partner

Like you, we understand the importance of being flexible. We know that the right approach and the right set of capabilities can make or break the success of a project.

Matrix Service has deeper financial and talent resources than many smaller contractors. You can rely on us to see projects through to completion safely, on time, on budget and with the quality you expect.

At the same time, Matrix Service is more streamlined than many larger providers. We can move quickly, adapting to your needs. We have the capacity and rapid scalability to provide consistent service in high-demand markets where it is often hard to find the right skills and quality.

**“For us, safety is more than a core value. It’s a way of life. We are all accountable - safety is first and foremost in all we do”**

# MATRIX SERVICE KNOWS YOUR INDUSTRY

## Oil, Gas & Chemical

We serve the entire industry, from producers to refiners, chemical processors and distributors. Success in this sector depends on fast action. Shifts in the energy market and supply can have a major impact over a very short time frame. Our inherent flexibility and full service portfolio helps you respond quickly.

## Mining and Minerals

This industry is highly sensitive to market conditions. Mines are quick to start up and equally fast to shut down. Matrix Service can move as fast as you do, with services that cover the entire mining life cycle. We offer in-house engineering, construction and fabrication capabilities, along with dedicated expertise in material handling and environmental solutions to support mining operations.

## Industrial

Across this sector new facilities are needed, aging plants must be updated and new technologies implemented. We help heavy industrial companies and public-sector organizations across the continent build and renovate, reconfigure and maintain their critical infrastructure.

## Power Generation

Within the industry there are numerous challenges, including increased demand in many areas, aging facilities and the need to control costs. In addition, some generators are looking for alternatives to traditional power generation. Matrix Service has the capabilities to support the power industry.

## CAPABILITIES

**By working with us, you get access to the skills of specialized contractors across many disciplines -the right team and the right capabilities for your unique project requirements.**

- Comprehensive mechanical and civil engineering services
- Fabrication – steel plate, pipe and vessel
- Project management – planning, scheduling and cost control
- Facility construction, retrofit, modernization and relocation – refineries, petrochemical plants, terminals, power plants and renewable energy
- Civil projects and concrete structures
- Structural steel
- Mechanical and piping systems
- Equipment installation
- Aboveground storage tanks – design, construction, repair and maintenance
- Specialty vessels
- Dike and tank liners
- Precision millwrighting
- Electrical and instrumentation
- Environmental services
- Refining and petrochemical turnarounds
- Facility and plant commissioning, startup, shutdowns and outage management
- Facility maintenance
- Boiler construction, repair and maintenance
- ASME Code work and welding
- Material handling systems
- Emergency response

# OUR PEOPLE AND LOCATIONS — WHEN AND WHERE YOU NEED US.

Matrix Service Company has more than 30 offices strategically located throughout the U.S. and Canada, and currently employs more than 5,000 people. With established operations, we are well positioned to serve you. Likewise, we are prepared to add operational facilities as needed. We're committed to growth in both people and locations, making sure we're available 24/7 — when and where you need us.
