

ONGOING MAINTENANCE CONTRACT SINCE 2003

CLIENT - BP Cherry Point Refinery
LOCATION - Whatcom County, WA
COMPLETED - Ongoing

DESCRIPTION

Matrix Service has been working at BP's Cherry Point Refinery since 2003 and has again been awarded the maintenance contract. The refinery sits on 3,300 acres and currently processes about 230,000 barrels of crude oil each day from the Alaska North Slope, which makes it the largest refinery in the state of Washington and the third-largest refinery on the West Coast. Matrix Service has approximately 375 employees performing maintenance work at this refinery daily. BP has a significant outage every other year that lasts about six weeks, and Matrix Service employs up to 900 people during these outages. Routine maintenance is required on all equipment and machinery to keep this a safe, reliable, and profitable refinery.

PRINCIPAL FEATURES

- Providing refinery maintenance to Cherry Point for over 14 years
- Up to 900 Matrix Employees onsite during significant outages
- Matrix Service employs 33 % of BP Cherry Point's workforce
- About one major outage every other year lasting six weeks, increasing Matrix's presence to 900 employees onsite

"Matrix Service isn't afraid to put challenge back into the conversation, especially if it's about making sure a decision is the best one for BP. That's partnership."

-BRIAN BARCLAY,
MAINTENANCE AND RELIABILITY MANAGER,
BP CHERRY POINT
