

ABOVEGROUND STORAGE TANK CONSTRUCTION

CLIENT - Enbridge

LOCATION - Cheecham, Alberta, Canada

COMPLETED - 2011

DESCRIPTION

Matrix Service constructed two above-ground storage tanks for Enbridge in Western Canada at the Cheecham terminal tank farm. The tanks are virtually identical and both include the dome-style roofs.

The office based in Leduc, Alberta had begun construction in the summer of 2011; The project manager, operations manager, and crew completed the project successfully with zero incidents.

PRINCIPAL FEATURES

- Constructed (2) aboveground storage tanks
- Dome-style roofs
- Zero safety incidents
